

I am requesting that LPFM stations not be allowed to take priority over current FM translator service.

I am a resident of Hemet and listen to AIR1 by the radio in both my home and car daily. AIR1 is the only radio station that my family listens to as it is safe, clean music. I know many other families in this community who also listen to AIR1 as their only radio station because we do not allow our children to listen to music that does not uphold our values. AIR1 does. AIR1 provides a valuable service to our families and is in the public interest because it promotes good morales, values and ethics. It is the only radio station in our area that young people enjoy listening to that promotes these positive influences necessary for rebuilding our society.

Please do not allow anything to get in the way of the broadcasting of AIR1 in our community.
